WHY US?

Established in 2011, Campbell Construction Co is a well-known construction company that specialises in all construction-related items. We are a local, well-established, responsive, reliable, and committed company that prides itself in customer service and customer experience.

Using our expertise, professionalism, and caring nature alongside Occupational Therapists and related care professionals, we provide end to end building solutions to our clients and customers.

Our team demonstrate industry knowledge and experience in completing building modifications within the disability and aged care categories.

Campbell Construction Co specialises in all aspects of assistive housing, under multiple funding providers including NDIS, DVA, NIIISQ, CHSP and HCP funding services.

CARE**

OUR CAPABILITY

The Campbell Construction Co's Assistive Housing Division can take care of all home modifications to improve our client's mobility and quality of life at home.

Covering a wide range of building solutions, we can take on anything from a support rail installation to a full major build!

Through our team's experience, our fit for purpose job management system and ISO-9001 compliant quality assurance program, we ensure that projects are run efficiently and respectfully with open lines of communication between all stakeholders from the initial contact through to handover.

What we can provide:

- Modifications for general safety & access such as ramps, rails, steps, and grab rails.
- All bathroom renovations and modifications.
- All kitchen renovations and modifications.
- Any general access requirements such as the widening of doorways, door wedges and pathways.
- Lighting & electrical improvements.
- Home automation systems.
- Access lift installation.
- Hoist and track system installation.
- All external and internal building works.
